Sea Shading Blends are composed of several mixtures from the lightest to darkest. They are sold by module, 1 module = 8 sheets, (1 sheet per level from 1 to 8). Besides, 1 and 8 levels can be sold separately to complete floor, wall or roof.

**Use in swimming pool (example)**

*All ONIX 98 % recycled glass mosaics series are made of molten glass. Molten glass characteristics may include irregular edges and small variations in size. These characteristics are inherent to the product and to the standard production. The small size and shape variations can affect the grout joint appearance and enhance the natural aspect of these products.*
